**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 1 – 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Uchida et al. (US 5,622,512).

Uchida disclose a water proof connector comprising:

a housing (1) having an inner housing (9) and an outer housing (8);

a mating housing (not shown);

a loop sealing member includes a sealing part (2a) with a reinforcing part (un-numbered) adjacent to a locking part (7) with a slit or under cut (see Figure 1);

an lock engaging hole (4).

Uchida et al. substantially disclosed the claimed invention except for the locking part being made of rigid material.

Uchida et al. substantially disclosed the claimed invention except for the housings being made of cast metal.

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have a rigid material for the locking part and a cast metal material for the housings, since it has been held that to be within the general skill of a worker in the art to select a

known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416.

### ***Information Disclosure Statement***

3. The examiner do not consider two reference US 6,292,973 and US 6,298,516 of the IDS filed on 12/01/03 because they are not a relevant to the art.
